DETAILED ACTION

Allowable Subject Matter

Claims 1, 9-16 and 25-31 (renumbered as claims 1-16) are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, 16 and 31 (renumbered as claims 1, 9 and 16, respectively), the prior art of record fails to specifically disclose a method of delivering multicast information by radio from an information delivery apparatus to wireless terminals that are experiencing different reception conditions within a service area. The method includes transmitting a plurality of identical sets of multicast information under respective different transmission conditions that correspond to different reception conditions of the wireless terminals. Furthermore, the method also includes a step of measuring reception quality at each of the wireless terminals and receiving at any given one of the wireless terminals, one of the identical sets of multicast information being transmitted under the respective different transmission conditions. The one of the identical sets of information is transmitted under one of the different transmission conditions and is received by use of the one of the different transmission conditions that is selected based on the reception quality measured in said measuring step.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
